

Project Demo Planning

Date	5 July 2026
Team ID	XXXXXX
Project Name	Smart lender
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the Smart Lender project, explain the need for AI-based loan approval and fraud detection, and describe the objectives.	2	Team Member 1
2	Solution Overview	Explain the system architecture, technologies used (React.js, Flask, MySQL, Scikit-learn), and overall workflow.	3	Team Member 2
3	Live Feature Demonstration	Demonstrate user registration, login, loan application, document upload, fraud detection, loan eligibility prediction, and loan approval dashboard.	8	Team Member 3
4	Machine Learning Model	Explain dataset preprocessing, model training, fraud detection, and eligibility prediction results.	3	Team Member 4
5	Testing & Performance	Present testing results, performance metrics, and system reliability.	2	Team Member 5

6	Conclusion & Future Enhancements	Summarize the project outcomes and discuss future improvements such as credit bureau integration and advanced AI models.	2	Team Member 2
---	----------------------------------	--	---	---------------

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the challenges of traditional loan approval and the motivation for Smart Lender.
2	Solution Overview	Present the architecture, workflow, and technology stack.
3	Live Feature Demonstration	Show registration, login, loan application, document verification, fraud detection, loan eligibility prediction, admin dashboard, and approval/rejection process.
4	Q&A Session	Answer questions from the evaluator and explain implementation details.
