Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person or external system that interacts with the Smart Lender system by sending or receiving data. Examples: Loan Applicant, Loan Officer/Admin, Credit Bureau, Bank.
Rectangle with numbered header	Process	An activity that processes incoming data and produces an output. Examples: 1.0 User Registration & Login, 2.0 Loan Application, 3.0 Document Verification, 4.0 Fraud Detection & Eligibility Prediction, 5.0 Loan Approval.
Rectangle (solid fill, no number)	Data Store	A repository where information is stored for later use. Examples: Applicant Database, Document Database, Loan Database, Fraud Detection Database.
Labeled arrow	Data Flow	Represents the movement of data between external entities, processes, and data stores. Examples: Registration Details, Loan Application, Uploaded Documents, Fraud Score, Eligibility Result, Loan Approval Status, Notifications.
